

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

Yes because it was practical. The most that I ~~was~~ enjoyed
when I was building the circuit

2. Did you feel that the lesson was somehow different than the others? State why?

Yes because we used the internet

3. What have you learnt from this lesson?

That ~~there~~ we can use the internet for good
cause

3. What have you learnt from this lesson?

About different switches

Other comments: _____

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

Yes, working together as a group and figuring out the answers by discussing was the most enjoyable part.

2. Did you feel that the lesson was somehow different than the others? State why?

Yes, Normally we would not look up information about a topic on our own.

3. What have you learnt from this lesson?

I have learned more about switches, ~~maybe~~ maybe even more if it were just a presentation by the teacher.

Other comments: _____

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

eh, it was decent although the other practicals where more enjoyable

2. Did you feel that the lesson was somehow different than the others? State why?

Yes, it was a practical

3. What have you learnt from this lesson?

Garage doors are complex and that i cannot use multimeters effectively

Other comments: dont take this to heart, i see most things negatively

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

Yes. I enjoyed building the circuits which involved switches.

2. Did you feel that the lesson was somehow different than the others? State why?

Yes. Instead of theory the lesson was more practical.

3. What have you learnt from this lesson?

I learnt that different switches are used for different things.

Other comments: _____

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

Yes I did because the practical was very interesting.

2. Did you feel that the lesson was somehow different than the others? State why?

Yes because we thought our selves not the teacher.

3. What have you learnt from this lesson?

That there are so many types of switches for many different uses.

Other comments:

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

Yes, when we were doing practical

2. Did you feel that the lesson was somehow different than the others? State why?

Yes, because we usually listen to the ser

3. What have you learnt from this lesson?

How to properly connect switches

Other comments:

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

Yes I enjoyed the group work and we showed how
a good teacher teach

2. Did you feel that the lesson was somehow different than the others? State why?

Yes it was more entertaining and more educational
we did more group work

3. What have you learnt from this lesson?

~~also~~ that working in groups helps you
learn more from others knowledge

Other comments: _____

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

Yes, when we built circuits

2. Did you feel that the lesson was somehow different than the others? State why?

Yes, it was more enjoyable

3. What have you learnt from this lesson?

Switches and teamwork

Other comments:

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

Yes, I love more the practical part.

2. Did you feel that the lesson was somehow different than the others? State why?

Yes, because the normal lessons we do not make a lot of practical

3. What have you learnt from this lesson?

How to build a circuit

Other comments:

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

Yes - The most enjoyed part was when we built
the circuit

2. Did you feel that the lesson was somehow different than the others? State why?

yes as we made the notes not the Sir.

3. What have you learnt from this lesson?

how to connect proper circuits

Other comments: _____

Student's feedback

1. Did you enjoy the lesson? If so what did you enjoy most?

I did enjoy the lesson because it was interesting and I enjoyed the practicals

2. Did you feel that the lesson was somehow different than the others? State why?

Yes, it was different from the others because it was more practical than

theory

3. What have you learnt from this lesson?

I learned the different types of switches and their functions
